

RISM meeting in Kassel on October 25-28 to discuss Series A/II (manuscripts 1600-1800) and questions of international co-operation; he plans to go.

The new totals for Data Sheets are 2,636 for unseen, and 10,422 for seen items; the grand total is 13,058, compared with last year's "almost 13,000". The 1867-1900 section of the Data Sheets has been computerized and will be available shortly as a microfiche catalogue. However, it will be integrated in one alphabet with all other printed material. Multiple access will be possible.

h) RILM

Kathleen McMorrow reported that abstracts for 52 articles in periodicals or collective volumes, 3 monographs and 1 dissertation were submitted to the RILM New York office by the national committee in the 1983/84 year. These represented imprints of 1979-83.

Kathleen called for help in making the RILM project known. She is handing over responsibility to Rita Vine. Alison Hall proposed a vote of thanks.

i) RidIM

Stephen Willis has had no success in this project yet; there have been funding problems.

6. Other business

a) Institutional addresses:

More claims than usual have been registered recently for Fontes. Sister Louise asked members to check whether their institutions have correct mailing addresses in the membership list, and if there are errors, to contact her or Debra Begg. Kathleen Toomey pointed out that there have been reports of Bärenreiter mixing up addresses, and that the editors of Fontes may contract with a different publisher when the current contract expires in 1986.

b) Telephone numbers on the membership list;

Alison Hall proposed including phone numbers, both home and business, on the CAML membership list: there were no objections. The numbers will be included only on lists circulated within CAML, and not on any made public.

Kathleen Toomey moved that the meeting be adjourned; seconded by Pat Kellogg. Passed.
