

REISSUED SOUND RECORDINGS: AVOIDING DUPLICATION

Our library tries to avoid the purchase of identical sound recordings under different labels. This has become increasingly important as the buying power of our dollar shrinks and the number of reissues on the market grows. Frequently, through searching in retrospective catalogues, or by serendipity, we are able to avoid purchasing duplicates, but sometimes we discover that we have a duplicate after the fact. Our cross-reference file of reissued sound recordings is constantly growing as are similar files in other music libraries. Perhaps we can start to lessen our dependence on serendipity by pooling our resources. For more information please contact:

"The Used CAML Lot" is a column in which CAML members can list major, minor, or augmented titles available for purchase or exchange. Those desiring to obtain any titles listed should contact the listing library directly to reserve the items wanted and to make arrangements regarding payment or exchange. Since one of the purposes of the column is to encourage exchange of music materials, the prices indicated are estimates only. In some cases, one may hope, the offering library may simply wish to give them away.

Please send lists with full bibliographic information and estimated value, as well as the name, full address and telephone number of the person to contact to:
